## **GLOBAL INTERPRETER LINE For Foreign Customer From All World Languages**

### **Why do you need Global Access Platform Services for Sponsor and Benefiter?**

Global coronavirus pandemic has had a significant impact on families, institutions, social and commercial activities and all financial markets.

Fixed offices became unusable with coronavirus. Big companies and institutions it got smaller and the activities and business earnings decreased. Classical commercial practices have changed. Now it is time to indemnify the losses and to recover.

Everyone is in a race to provide the fastest information to them targets directly and to make effective promotions.

Promotions of goods and services and meetings are now made over the web, zoom and social media instruments. Social media instruments have made it easier to serve everyone all across the globe as well as to carry out purchase/sale transactions.

Majority of the people never buy products from the websites presented only in English (or local languages)! There are large groups of potential clients/buyer/seller reaching hundreds of millions of people who want to know/purchase/sale your original-new-popular products and services. First of all, directing these potential clients in to you and providing information to them in their own languages will give you important opportunities.

The availability of the clients' own languages will show your respect towards them and improves their trust in your brand. Traders/Investors/Advisers/ Brokers/ Agents/ Sellers/Buyers/ Service Providers/Event Organizations, it should be able to provide information to their target audiences very quickly and in any language in an efficient and standardized way.

By setting up a global information line target persons or institutions should be able to call in twenty-four hours a day to hear recorded messages on main work topics from any language. Can you hire minimum 20 customer services representatives each speaking a different language? Do your high-potential employees communicate effectively and confidently enough with colleagues and customers in this highly-competitive, globalized marketplace? Are they poised to lead your organization to greater success? You need a partner that specializes in understanding and solving the language and cultural challenges of both native and non-native. Our partner/services provider group for almost 80 years American Global Translation company has been meeting the communication challenges of a changing world.

Sponsorship categories have been prepared for those who want to your foreigner target audience/ customers / investors free connections and promote at the highest level.

## SPONSORSHIP SERVICES

### I-THE GLOBAL INTERPRETER LINE SERVICES

We are installing and connect " GLOBAL INTERPRETER LINE " on web sites, call centers, mobile phones and social media activities of the Global Access Platform Sponsors and Beneficiaries. This line will open them up to the all-foreign customer and investors in the world.

We enable investors/customer/buyers/sellers and owner of Global business virtual office teams visiting

the website or call the call center will be able to speak from any language they need with the help of professional interpreters.

We offer you the ability to communicate with non-English (or who cannot speak your local language) speakers via On-site interpreting session or 3-4 way telephone conference calls with the assistance of a remotely located trained linguist to help you communicate quick and effectively

**Website**

**Call center**

**Business chat system**

**Social Media  
Instruments**

**Mobile Phone /  
WhatsApp / SMS**

**International Global  
Promotion**

**We are installing "FOREIGN CUSTOMER LINE" for professional communication in all languages with foreign people visiting Sponsor company websites.**

## How is the application done?

With professional voiceover, we upload your music-based messages in different languages to your fixed phone lines, call centers or multi-lingual 800 Call Center Numbers (for example you can listen of 800 809 2761) in different languages.

Foreign visitors and your customers can call your Toll Free 800 Call Center Numbers 24/7 from "FOREIGN CUSTOMER LINE" your web site.

If the people calling from the Call Center need an interpreter, the (internal) interpreter presses the request number from the call center.

Our Global Translator Line connects callers and customer representatives with professional translators with the phone conference systems. You can add "FOREIGN CUSTOMER LINE" link in the all kinds of written and visual documents for promotional purposes, and at the Instagram, YouTube, LinkedIn, Twitter, Facebook's, blog and e-mails.

By clicking these links, your visitors will be able to talk to you live in any language.

**You can check it here for detailed information.**

**You can connect to all foreign world with the “GLOBAL INTERPRETER LINE” from your MOBILE PHONES.**

## How is the application done?

**\*If you are going to call the foreign companies/persons from Mobile Phone**

Step 1, You are getting Translator Quota (<https://myinvestsupport.com/interpreter-connect/>)

Step 2, You send this message via SMS to the person (s) you will talk to on and your mobile phone. "When you inform us about your available time your phone number for the meeting, translation phone call service will be provided."

Step 3, With this information you have received, you can log in instantly from your mobile phone or our OPI interpreter web system with your private PIN number obtained from (<https://myinvestsupport.com/interpreter-connect/>).

Step 4, Our translators will get you talking to each other. International phone charges are not applicable from if the connect our OPI interpreter web system.

**If they need to talk to you and want them to cover the translator service fee, the other party can use the "Global Interpreter Line".**

In this case, the English message you can send to the other party; "You can call me from 'Global Interpreter Line' translation support service for my ..... language from (<https://myinvestsupport.com/interpreter-connect/>) address, you can provide translator-assisted calls from your language at any time. Please you are click. My phone number: ....., I am available today or on the ..... date and on the .....hours we can meeting

We can direct the Global Interpreter Line setup to the **social media tools** you prefer and use and support you for the setups.

Our Global Interpreter Connect program can connect to any wired or wireless network with a simple click of a connection.

We install the most advanced **"GLOBAL ACCESS BUSINESS CHAT SYSTEM"** free of charge on the websites of beneficiaries. The Business chat system, has translators for most languages, ready to translate your messages 24 hours a day, every day of the week.

## **II- Phone-Audible or Zoom- Visual Interpreter Conference Systems**

Over the phone interpretation is known to be incredibly cost-effective. Instead of hiring your own onsite interpreters for customer support, you can receive all the help you need from a third party. This saves your business time, money, and hassle. Global Integration Platform benefits using to the "Over the Phone or Zoom Interpreting & Audio (multi-party-persons) Tele-Conference or Zoom Meeting System" for instant communication in any language at any time.

This means that there is no need to schedule an interpreter in advance because there will always be one available. (OPI) Over the Phone-Zoom Interpreting Audio Tele-Conference Services; it is a tele-conference application with three or four people in different places with support of interpreter.

## Phone Interpretation & Translation

Telephone interpretation services connect a live human interpreter via phone. During these appointments, interpretation is consecutive which means the interpreter waits until the speaker is finished to convert what was said from one language to another.

### When is Phone Interpreting Preferred?

- 1.) Over-the-phone services are ideal when a professional in-person interpreter is not available. It eliminates the risk of miscommunication and liability concerns should an inaccurate interpretation take place.
- 2.) Depending on the circumstance, cultural norms, or religious background, an individual may prefer to not have another person present in the room.
- 3.) When the telephone is the primary means of communication, it makes sense to use telephone interpreters versus in-person or video interpreters.

This system differs from the (single-sided) Telephone Translation and Translation services in the market. Our system; it is a teleconference application with two people in different places with support of interpreter.

### Video-Zoom Remote Interpreting Rates

Unlike on-site and telephone interpretation, video remote interpreting (VRI) provides on-demand interpreting services with the push of a button. Whether for a doctor's-bank-insurance-real estate - business.... appointment, meeting, conference, or court hearing, pricing for video remote interpretation is an affordable solution when an in-person interpreter is not available.

### On-Demand-Interpreting from Interpreters Unlimited

An effective alternative to in-person interpretation, video remote interpretation provides a solution when exotic or less common languages are needed. Though in-person interpreting is very effective, additional fees may apply to on-site appointments based on language.

## How You Can Benefit?

**"Global Interpreter Line" Registry and Connection Process;**

**We offer both On-Demand and Pre-Planning options.**

This is a great alternative when you need to make a call right away and don't have time to set it up. We install the translators.

All participants click the link and begin the translation.

More Benefits of VRI

No risk of privacy issues

## III- Toll Free Multilingual 800 Call Center Numbers

These numbers are a special type of number created for business to enable customers to call them "for the global company". They are traditionally associated with the business and therefore offering a "Toll Free Multilingual 800 Call Center Numbers" adds a professional touch. The first, best known and most wanted free prefix is 800. Since then, others have been added to meet demand. These include 888, 877, 866, 855, 844, and most recently 833.

**Our difference is that 800 and other phones are supported by professional translators by any language.**

From caller-directed routing and self-service on the front end to connecting your customers to you and your team, enhanced phone network gives you the power to design a call flow that works for you, not the other way around.

All sellers/providers/agents need to be able to provide information to potential /investors/customers/ buyers on demand. When callers dial this number, they are greeted by the agent and given a quick overview of the agent or agency (Intro). The caller is then presented with the option to choose from current products/service listings or contact the agent (Menu).

If the caller chooses a products/service, they will hear a detail description of that products/service. After the description is finished, the call returns to the menu where the caller can select another property or choose to contact the agent.

### Stay Connected with

Keep in touch with your customers whether you're in the office or not. Or, send calls to your team when you are not available.

### **Automate Your System**

Caller-directed routing empowers your customers to get the assistance they need and saves you time.

### **Support Your Team**

Features incorporated into the platform help get your new team members up to speed and productive.

### **Ring Multiple Devices**

Calls can be sent to multiple phones to ensure everyone that could handle the call gets an opportunity to. Call distribution can be either simultaneous or sequential, depending on your needs.

### **A Better On-Hold Experience**

No one likes waiting on hold, but if everyone is busy it is often better than the alternatives. Use the provided audio prompts and on-hold music to make the wait more pleasant or supply your own music and audio interrupts for a custom on-hold experience. Your customers will be glad they waited.

### **Do Not Disturb**

When you simply can't take calls, temporarily remove yourself from the call queue by setting your phone to Do Not Disturb. Calls will continue to flow through to other team members or to voicemail if no one else is available.

### **Call Reports**

Generate the most up-to-date search reports instantly. Filter calls by date, caller ID, duration, and more. Results can be printed or exported in report format.

### **Auto Blocker**

Block unwanted callers by area code, prefix or a specific number. Automatic abuse protection can be enabled and customized to suit your needs.

### **Integrated Fax Receiving**

Your number can be configured to detect incoming faxes and automatically switch to fax receiving mode. Faxes are converted to PDF format for easy viewing, storage and sharing.

### **Flexible Notification**

Receive notifications of all calls, qualified calls and / or messages to one or more recipients via email and SMS text message. The email notification, if left, will include the message in the appropriate media format.

### **Pass Numbers and Outgoing Phone Calls**

We receive service from Twilio for outgoing calls. Calls within the US-Canada are free. For searches for other countries; The paid number is just a regular phone number. Depending on your plan, incoming calls are charged per minute at a discounted rate or at no cost. If you don't need a toll-free number and expect heavy call volume, consider this type of number.

## IV-Voicemail Setup for Multilingual 800 Call Center Numbers

The messages you want are recorded in the language of your choice (with Professional Voice Talent voiceover). Callers listen to your messages in the language they choose.

Our voice-over artists are all native speakers / professionals that will re-create any message you need in any language you want. We cover all languages, dialects ...and just let us know the age range and gender and we'll send you voice / audio samples. Workplace Languages only returns the highest quality audio with every detail clearly and accurately pronounced.

Our Bilingual Project Managers are there in the studio supervising all recording sessions

One of the most common uses is to take advertising response with Multilingual 800 Call Center from all customers. Callers dial your number and listen to an outgoing message describing your product, service or opportunity and possibly directing the caller to additional resources (such as a multilingual web site) for more information.

If the caller is interested, they are invited to leave a message including their name, telephone, best time to call or whatever information you like.

Take advantage of our team of talented voice actors to get your script recorded professionally. It can send you a request by message. Your messages are saved. These messages are sent to you instantly.

### 800 NUMBER PROVIDED

With professional voiceover, we upload your music-based messages in different languages to your fixed phone lines, call centers or multi-lingual 800 Call Center

Numbers You give us your list of most needed languages.

And we setting up your company's own "Global Interpreter Line."

**For example: you can listen of 800 809 2761 from different languages.**

Phone Number: 800-855-2424 (Sample 800# – Not Operational)

Press 1 for Spanish Press 2 for French-Canadian Press 3 for Arabic

Press 4 for German Press 5 for Chinese Press 6 for Turkish Press 7 for All other languages

#### **No Equipment to Buy, Install or Maintain**

there is no equipment to buy, install or maintain for Global Access Platform Solutions and Services. All the physical equipment required for the service is housed and maintained at our facility.

#### **Instant Activation**

Simply choose your number, enter your information and submit. Within moments, your number is active and ready for use.

#### **Manage Your Account from Anywhere**

You can easily manage your 800 virtual phone system by phone or from any Internet-enabled device from anywhere in the world.

#### **Text Messaging (SMS)**

If a call does end up going to voicemail, notification can be sent to one or more members of your team via email, SMS text and / or phone so that the call can be returned or acted upon as soon as possible. Text messaging is an options feature that allows you to send and receive text messages on your 800 numbers just like you do on your mobile phone. Open up a new channel of communication with your customers and prospects while maintaining your business identity and keeping your personal information private.

#### **Outgoing message**

The outgoing message, also called greeting is the first thing callers hear when they call your number. The message can be recorded on the phone, a digital audio file uploaded or you can use our professional recording service for an outstanding caller experience.

#### **Incoming Messages**

Your voicemail can hold up to 1,000 messages. Messages can be received by phone or online. Messages are automatically saved for up to a month. If you need to save messages longer than that, consider using the email delivery described below.

#### **New Message Notification and Delivery**

When a new message arrives, our notification system will call and / or send you an e-mail. Notification happens almost instantly, which is important if you need to respond in a timely manner. Attaches email delivery, an MP3 file for voice messages and a PDF file for fax messages.

## V- Multilingual Professional Interpreter Supported Virtual Receptionist

If the caller chooses to contact the agent, the call is forwarded to the agent's cell phone. If the agent does not answer, the caller is instructed to leave a message with their name, phone, the The Multilingual professional interpreter Supported Virtual Receptionist (Virtual Assistant), also known as an Automated Attendant, takes over the mundane task of answering calls, presenting the caller with the options available and directing the calls to their final destination. The auto attendant may also answer frequently asked questions, such as the business web address and application process.

### Types of Interpretation

virtual receptionist is generally considered to be any IVR system that allows callers to make choices that affect how the call proceeds, such selecting a language or routing a call to a particular person or department. A virtual receptionist saves you time and provides a convenient way for your callers to direct their call to where they want it to go.

**Our difference is that there is no virtual receptionist who only speaks English. Interpreter-supported callers from all languages are answered.**

### Menu / Virtual Receptionist

A menu or virtual receptionist allows the caller to make a selection from various options. Generally, options are single digit (1, 2, 3). However, the option length can be from one digit to four digits. Submenus are also supported for more complex applications.

### Calls Answered Cheerfully Every Time

Your virtual receptionist never gets tired or grumpy. Each call is answered with cheer and enthusiasm (unless that's not what you want).

### 24/7 Availability

Often there is information that callers may want that is general enough to apply to any caller. Such information could include driving directions, procedures for returning a purchase, etc. Once the information is recorded and made available through your virtual receptionist, callers can access the information any time and as often as they want.

## VI. Global Business Chat System of All Languages

We install the most advanced Global business chat system from all languages on the websites of beneficiaries.

The Global Business chat system is the perfect tool to make your new foreign investor customers happy.

Business chat system has translators for many languages ready to translate your messages 24 hours a day, every day of the week.

By using the business chat system, you will be able to quickly read incoming customer messages in any language.

You have the opportunity to chat with your investor-clients wherever they are, so you never lose another investor-client when they leave your website.

Our chat tool allows you to cover a wider potential audience, grow your business and increase the productivity of your team.

**Messages from Facebook, Viber and Telegram** come directly to Global Business chat system App and are distributed among your representatives.

Besides transferring chats, it's also possible to have group chats with customers and foreign investors.

### **Get on the phone with clients in 30 seconds or less**

1. After a visitor requests a Callback, all your agents' phones ring at once.
2. When one of the agents answers the call, all other phones stop ringing and Global Business chat system calls the visitor.
3. The agent who answered the call first is connected with the visitor. Talk on the phone and message in-chat at the same time. Callback works with chat so that you can take a call and recommend a product while sending documents, attachments, and links to your visitors. This well-rounded customer service experience gives you a higher chance at closing sales right over the phone.

**“INVESTOR CONNECTUS” LINE FOR CONTACTING INVESTORS**

**FOR DETAILS**

### **XIII -Global Escrow Services for Secure Payment**

We provide secure payment consultancy with the Escrow payment system in all purchase and sale transactions. You can establish credibility with buyer-seller parties, as Escrow system is supported by the most trusted, licensed online escrow service in the world.

Escrow payment system is fast becoming the world's most prevalent method of performing online transactions. Whether you are buying or selling, the appeal of Escrow lies not only in the incomparable safety and security features it provides the user but also within the simplicity of the process.

The buyer uses the secure online system established by Escrow to transfer the funds for the merchandise, and the seller is notified that they money is in a holding account waiting for them to fulfill their obligations as agreed in step 1.

**Escrow Is the World's Most Secure  
Payment Method From A  
Counterparty Risk Perspective**

**- Safeguarding Both Buyer And  
Seller, All Funds Transacted Using  
Escrow Are Kept In Trust.**

- 1. Buyer and Seller agree to terms**
- 2. Buyer submits payment to Escrow**
- 3. Seller delivers goods or service to the buyer**
- 4. Buyer approves goods or services**
- 5. Escrow releases payment to the seller**

The seller ships the item and provides tracking information to Escrow. The buyer has a specified time period to accept the item and advise Escrow that this has been accepted.

If the seller rejects the item it is at this point that a dispute will be raised and Escrow will be required to act as a third party for resolution.

Once the merchandise has been accepted by the purchaser, Escrow release the funds to the seller and the transaction is complete. Escrow provides enormous benefits to both buyers and sellers no matter what area of online trading they're involved in.

Escrow system removes all elements of doubt on the behalf of a buyer that their money will be spent exactly as intended. Money isn't released to the seller until they are satisfied with the goods and shipping and delivery are tracked by the third party which ensures that no items 'go missing' once a buyer has made their payment. [What is Escrow – myinvestsupport.](#)

With Escrow system, there is no need to rely on trusting a stranger to complete your online transactions. It provides a safe and secure third-party environment which will ensure that your all buying and selling take place worry-free and with ease.

In a nutshell Escrow system is a trusted third party that collects funds and disburses them when both parties involved in an online transaction are satisfied that all terms and conditions have been met
