GLOBAL ACCESS SERVICES FOR UNIVERSITIES EDUCATION INSTITUTIONS

We are installing "FOREIGN STUDENT AND PARENT LINE" on web sites, call centers, mobile phones and social media activities. This line will open you up to the foreign students and parents in the world

Why do you need Global Access Platform Services?

For both students and colleges, the coronavirus crisis has created a massive disruption in the financial “norm” of higher education. With schools closing, switching solely to online, restructuring classes, cutting costs and so much more, some of the most basic assumptions about college and college life have already been thrown out the door. [See More](#)

Even the ones with significant endowments, like the \$1 billion University of has stashed away, are finding it difficult to model their next few years. Facing these shortfalls in expected revenue, schools are turning to cost-saving maneuvers, many of which having already been standard operating procedure, but could now go into overdrive.

“Many schools have implemented hiring freezes, paused capital building projects, the list goes on. University of is projecting to lose \$250 million from the pandemic. University of estimates losses from \$400 million to \$1 billion. University has already lost \$35 million in unexpected expenses since the pandemic started,” Everyone is in a race to provide the fastest information to them targets directly and to make effective promotions. Social media instruments have made it easier to serve everyone all across the globe as well as. There are large groups of foreign students and parents of students reaching hundreds of millions of people who want to know and registry your education services. First of all, directing these potential students in to you and providing information to them in their own languages will give you important opportunities. The availability of the clients’ own languages will show your respect towards them and improves their trust in your brand.

By setting up a global information line target persons or institutions should be able to call in twenty-four hours a day to hear recorded messages on main work topics from any language. Hundreds of millions of people in every country speak languages other than English, and the demand for qualified medical translators is more than ever. Voicemail Setup for Multilingual 800 Call Center Numbers

Our difference is that 800 and other phones are supported by professional interpreters by any language.

From caller-directed routing and self-service on the front end to connecting your customers to you and your team, enhanced phone network gives you the power to design a call flow that works for you, not the other way around.

With professional voiceover, we upload your music-based messages in different languages to your fixed phone lines, call centers or multi-lingual 800 Call Center Numbers (for example you can listen of call 800 809 2761) in different languages.

Foreign visitors and your customers can call your Toll Free 800 Call Center Numbers 24/7 from "FOREIGN CUSTOMER LINE" your web site.

If the people calling from the Call Center need an interpreter, the (internal) interpreter presses the request number from the call center.

Our Global Translator Line connects callers and customer representatives with professional translators with the phone conference systems. We can direct the Global Interpreter Line setup to the **BUSINESS SOCIAL MEDIA TOOLS** you prefer and use and support you for the setups.

You can add "**FOREIGN CUSTOMER LINE**" link in the all kinds of **written and visual documents for promotional purposes, and at the Instagram, YouTube, LinkedIn, Twitter, Facebook's, blog and e-mails.**

Also, we install the most advanced "**GLOBAL CUSTOMER CHAT SYSTEM**" free of charge on the websites of beneficiaries. The Business chat system, has translators for most languages, ready to translate your messages 24 hours a day, every day of the week. By clicking these links, your visitors will be able to talk to you live in any language.

Multilingual Professional Interpreter Supported Virtual Receptionist

If the caller chooses to contact the agent, the call is forwarded to the agent's cell phone. If the agent does not answer, the caller is instructed to leave a message with their name, phone, the Multilingual professional interpreter Supported Virtual Receptionist (Virtual Assistant), also known as an Automated Attendant, takes over the mundane task of answering calls, presenting the caller with the options available and directing the calls to their final destination.

The auto attendant may also answer frequently asked questions, such as the business web address and application process.

All foreign students and parents in the world need to be able to provide information from all languages from about of your school

When callers dial call center number, they are greeted by the agent and given a quick overview of the agent or owner of company. The Multilingual professional interpreter Supported Virtual Receptionist (Virtual Assistant), also known as an Automated Attendant, takes over the mundane task of answering calls, presenting the caller with the options available and directing the calls to their final destination. The caller is then presented with the option to choose from current products/service listings or contact the agent (Menu). If the caller chooses a health service or doctor, they will hear a detail description of that service or appointment. After the description is finished, the call returns to the menu where the caller can select another property or choose to contact the SCHOOL managers
